PRE-TEST

INSTRUCTIONS

Print and photocopy page 2 in a sufficient number of copies for the members of the class. Give the Pre-Test to each student and invite them to complete it autonomously. It is important that the youngsters understand that this is not an in-class assignment, but only a system to analyse the class's level of knowledge of European issues. Give the students the time necessary to complete it (About 5 minutes).

Then move on to the collective correction phase: for each question, "put to the test" a randomly chosen member of the class, ask them which option he or she chose, and only after obtaining answer, reveal the solution to the class. This phase should be very quick (it should not take more than 5 minutes) to allow the proper execution of the entire lesson.

Solutions
